## **INFORMATION TECHNOLOGY Division**

### **MEMORANDUM**

<b>From:</b>	Network Engineer	<b>To:</b>	Procurement Manager
<b>Date:</b>	05 <sup>th</sup> April 2020	<b>Thru:</b>	IT Director
<b>Ref:</b>	Request for a Replacement	<b>Cc:</b>	Ag: IT Manager

Dear Sir,

Ref: **Request for Network Equipments (Urgent).**

I hereby place an internal request for the above mentioned, However as on the list attached, these items are needed before the deployment of the IMS.

Moreover, the throughput for the IMS will NOT be at average, if the revamp of the network is not assessed.

The current network infrastructure within and all remote cash offices across the country, the behavior is unpredictable, as a result, worse case scenario is that, all branches including third party partners will also be affected, if IMS is deployed.

Yours Faithfully,

---

Demba Sonko.
